The figure displays a V-shaped region defined by a series of points, with a shaded area inside. The points are numbered 0 through 21. Points 0, 1, 2, 3, 12, 13, 14, 15, and 16 are marked with blue circles and labels. Points 4, 5, 6, 7, 8, 9, 10, 11, 17, 18, 19, 20, and 21 are marked with black dots and labels. The shaded region is bounded by points 0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, and 21. The table on the right lists parameters for various points and regions.

The figure displays a V-shaped region defined by 22 numbered points (0 to 21) on a grid. The points are connected by dashed lines, forming a V-shape that opens upwards. The region inside the V is shaded light gray. Two points, 7 and 8, are connected by a solid red line. The points are labeled as follows:

- Top points: 1, 2, 13, 14
- Second row: 0, 21, 4, 3, 12, 11, 16, 15
- Third row: 20, 5, 10, 17
- Bottom points: 19, 18
- Central point: 9

Below the plot is a table with 6 columns: name, p1, p2, units, and scale. The table contains 22 rows of data, with the last two rows highlighted in red.
