Figure 1: A plot showing the distribution of 38 numbered points (0-38) in a 2D space, likely representing a protein structure or a set of coordinates. The points are colored blue (0-38) and are connected by lines. The plot is divided into two main regions by a vertical line at x=0. The left region (x < 0) contains points 0-10, and the right region (x > 0) contains points 11-38. The points are clustered into several groups, with some points (e.g., 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38) forming a large, elongated shape. The points are labeled with their respective numbers (0-38). The plot is titled "YTL C594" and "0079". The x-axis is labeled "x" and the y-axis is labeled "y". The plot is divided into four quadrants by the x and y axes. The top-left quadrant is labeled "YTL C594", the top-right quadrant is labeled "0079", the bottom-left quadrant is labeled "WLR PCAU", and the bottom-right quadrant is labeled "77".

Figure 1: A plot showing the distribution of 38 numbered points (0-38) in a 2D space defined by axes y and x . The points are grouped into three main clusters: a lower-left cluster (points 0-8), a central cluster (points 9-15), and an upper-right cluster (points 16-38). The points are connected by lines, and the resulting shape is filled with a light gray color. The plot is overlaid on a grid with major lines at $y = -361$ and $y = 989$, and $x = 0079$ and $x = 139$.

The following table provides the coordinates and scale for each point:

name	p1	p2	units	scale

Figure 1: A plot showing the distribution of points (circles) and a shaded region (gray area) in the YTO525 plane. The x-axis is labeled 'y' and ranges from -361 to 989. The y-axis is labeled '0079' and ranges from 110 to 110. The shaded region is bounded by a dashed line and contains several points labeled with numbers (0 to 38). The points are colored blue (0 to 10), green (11 to 15), red (16 to 20), and black (21 to 38). The plot is divided into four quadrants by the axes.
