The diagram illustrates a network of points and lines, likely representing a structural or spatial analysis. The points are numbered 0 through 41. The lines are color-coded: green for most connections, red for specific highlighted paths, and blue for others. The network is divided into several distinct regions by these colored lines. A table on the right provides data for each point, including its name, p1, p2, units, and scale.

The diagram illustrates a network structure with nodes and connections. A large shaded area represents a specific region. The nodes are numbered 1 through 41. The connections are represented by lines between the nodes. The diagram is divided into three main sections by vertical lines. The left section shows a large shaded area with nodes 1 through 41. The middle section shows a large shaded area with nodes 1 through 41. The right section shows a large shaded area with nodes 1 through 41. The diagram is labeled with 'M' at the top left, 'YTTL0' at the top center, and '004D' at the top right. A table on the right lists various nodes and their associated values. The bottom of the diagram is labeled with '-71', '1918', and '-51'.
